

HANDCRAFTED FROM NATURAL HEATHER STEMS

HEATHERGEMS
made in Scotland

Uniquely Scottish and a beautiful reminder of our landscape.

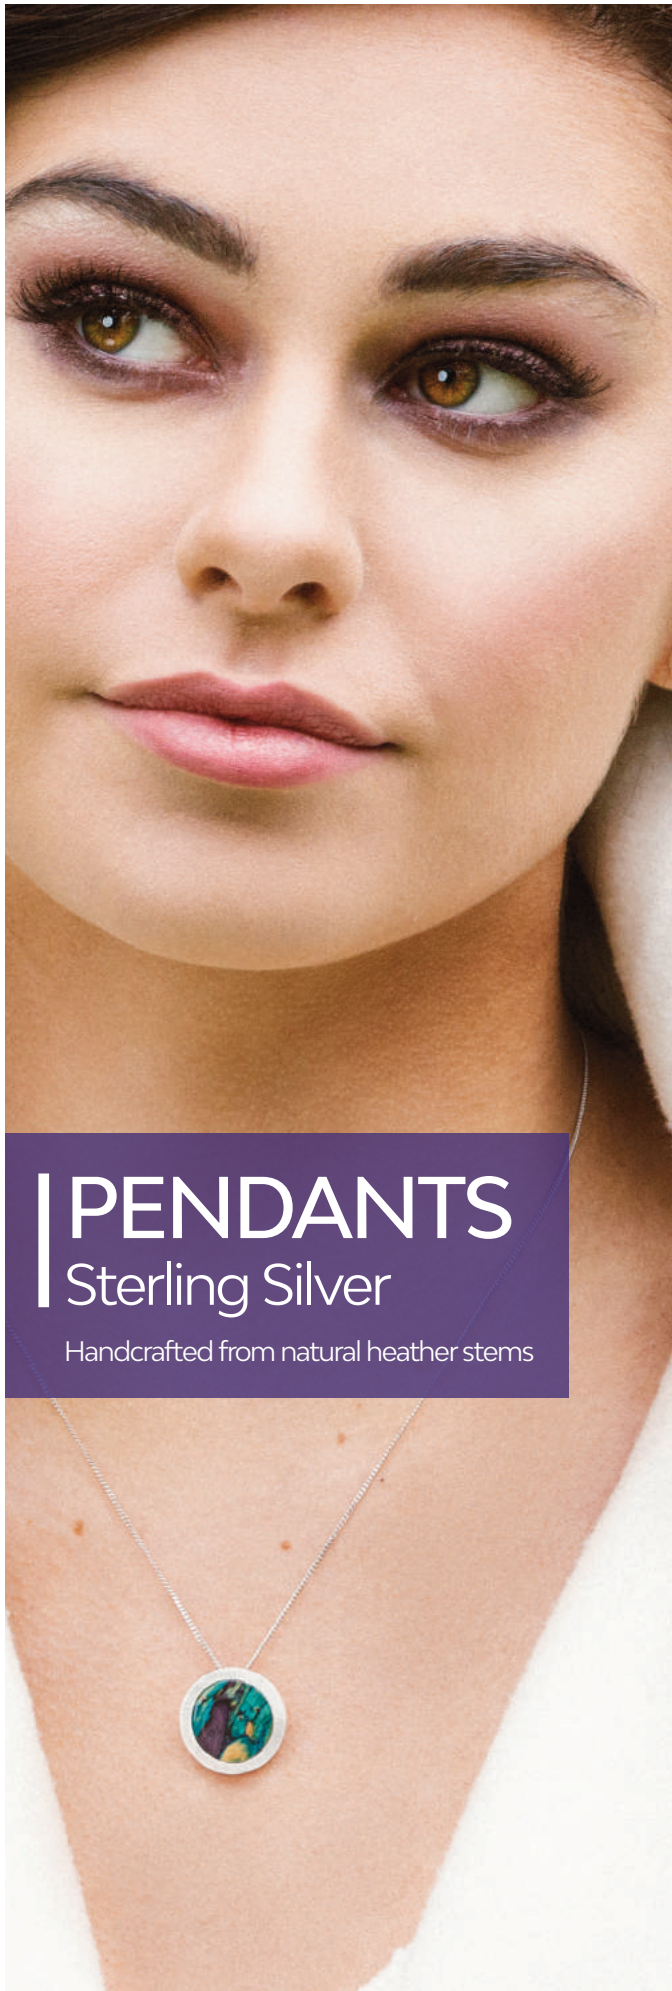

HEATHER... IT IS THE LOOK OF SCOTLAND... THIS WILD, EVERGREEN PLANT WHICH TWICE A YEAR BLOOMS, AND CLOAKS THE HIGHLANDS OF SCOTLAND IN A RICH PURPLE.

Heathergems are handcrafted from the stems of Scottish heather in a process developed over the last 50 years. The company was established in 1970 and is run today as a family business.

Nowhere else in the world will you find this unique range of jewellery and gifts.

Uniquely Scottish and a beautiful reminder of our landscape.

CUSTOMER VISIT

Contact our office to arrange a visit. Our sales manager will be delighted to book an appointment with you.

All Heathergems come supplied in a gift box with a story card & are packed in a variety of colours.

www.charlesbuyers.com

HOW IT'S MADE

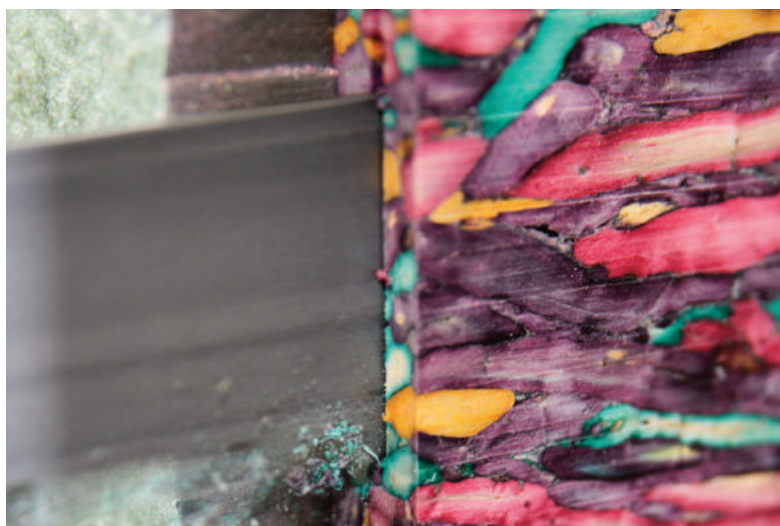

1. Heather is collected by hand from the Scottish hillside.

3. The bark is removed from the stems using a shot blasting machine.

4. The stems are dyed various colours in a vacuum chamber.

6. The heather block is cut into individual slices of different thickness.

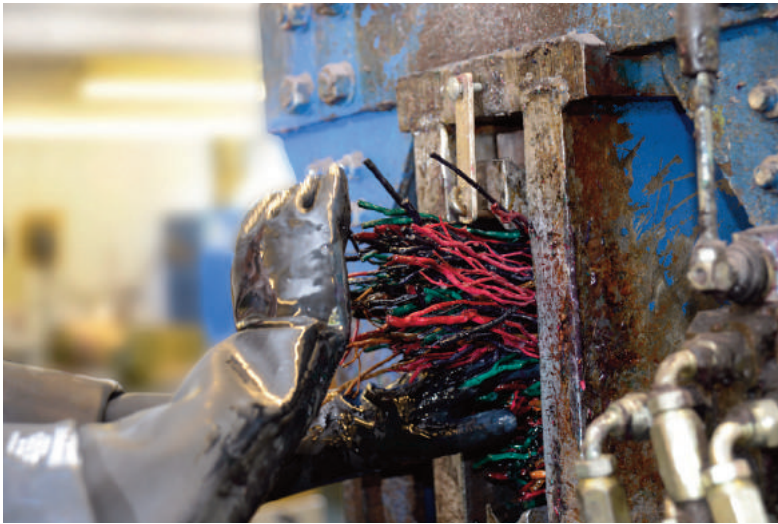

7. Various shapes and sizes are cut out on a CNC machine.

Uniquely Scottish and a beautiful reminder of our landscape.

2. The heather then is dried and the stems are cut to length.

5. Next they are subjected to 60 tonnes of pressure and compressed into a block.

8. The pieces are then sanded and shaped by our skilled craftspeople.

9. We then apply lacquer by hand to enhance the beautiful colours and patterns.
